

### Lemon Furniture Polish

Article No. 6729 (369 g/13 oz.) (U.S.)

Article No. 6737 (370 g) (Canada)

Watkins Lemon Furniture Polish brings out the natural beauty of wood. Containing both waxes and silicones, it helps protect against spills and stains. It cleans, dusts, and waxes in one simple application. Use it on all of your fine woodwork.

#### Why Watkins?

- **Paraffinic Hydrocarbons:** Helps cut through grease and oily build-up; brings out the natural beauty of the wood.
- **Optimum blend of silicone and wax:** Improves gloss finish, giving a lustrous glow to all wood surfaces; leaves an invisible film that helps protect metal, enamel, formica and most other surfaces against spills and stains.
- **Lemon fragrance:** Leaves furniture with that “just-waxed” lemon fresh scent.
- **Multi-use “spray and wipe” formula:** Saves on cleaning time; cleans, waxes, polishes, and dusts in one step—just spray on furniture and wipe off.
- **Versatile:** Works on light and dark woodwork, cabinets, plastics, leather, porcelain and enamel, formica, chrome, stainless steel, brass, vinyl upholstery and marble.
- **Aerosol formula/no fluorocarbons:** Convenient, easy-to-apply directional spray, but won't pollute the atmosphere.

### Panel & Wood Cleaner

Article No. 6776 (473 mL/16 fl. oz.)

Make your old furniture look as good as new—without harmful chemicals! This effective formula is less toxic and more user-friendly than ever. Use on all finished woods, including paneling, woodwork, kitchen cabinets, and wood floors. A must for antique owners and dealers. One bottle can save hundreds of dollars in refinishing costs; although it's not a cure-all, try it first—refinishing may not be necessary, and in the case of most antiques, is not recommended! Do not use on unfinished wood, and always test on an inconspicuous place first.

#### Why Watkins?

- **No harmful chemicals:** Mineral oil formula with d-limonene is as safe as baby oil!
- **Convenient—does all of the following in one step:**
  - Helps cut through grease and oily buildup
  - Restores original color and natural lustre to wood finishes
  - Blends in scratches and blemishes
  - Penetrates and replaces lost oils
  - Seals wood against humidity or drying
  - Gives long-lasting water resistant protection
  - Provides a dust-repellent surface
  - Does not create surface buildup to dull wood's finish
- No need to wait before wiping, unless wood is exceedingly dry
